The diagram shows a cross-section of a device. At the bottom is a hatched substrate 851. Above it is a thin layer 1011. On top of layer 1011 is a circular component 291. To the right of 291 is a rectangular component 863. Below component 863 is another thin layer 732. At the very bottom right is a large rectangular block 511. A dashed line 22a points from the center of component 291 towards the upper left. Another dashed line 22b points from the interface between layer 732 and block 511 towards the upper left. Other labels include 1012 pointing to the side of component 291, 341 pointing to its top surface, and 851' pointing to the left edge of the substrate.
